

HYPHEN IS A SYMBOL OF TREASON TO NATION, DECLARER ROOSEVELT

In Talk to Knights of Columbus He Denounces Race or Creed Prejudice in Politics.

Hypenated American is treason, Theodore Roosevelt told a vast audience of Knights of Columbus of Manhattan and the Bronx, at their Columbus Day celebration in Carnegie Hall. His speech, likened by many to that of President Wilson in Washington on Monday, was vociferously applauded. Among other things Col. Roosevelt advocated putting illiterate immigrants under bond to learn English and American citizenship within a stated period.

"There is no room proper in this country for the hypenated American," almost shouted the Colonel. "You can't boil two eggs on the same gaspole and not have one undermine the other. He continued:

"When I refer to hypenated Americans I do not refer to naturalized Americans. Some of the very best Americans I have ever known were naturalized Americans—Americans born abroad. But a hypenated American is not an American at all. This is just as true of the man who puts 'native' before the hyphen as of the man who puts German, or Irish, or English, or French before the hyphen."

The one absolutely certain way of bringing this Nation to ruin, of preventing all possibility of its continuing to be a Nation at all, would be to permit it to become a tangle of squabbling nationalities.

"For an American citizen to vote as a German-American, an Irish-American or an English-American is to be a traitor to American institutions; and those hypenated Americans who terrorize American politicians by the threats of the foreign vote are engaged in treason to the American people."

Col. Roosevelt was introduced by Supreme Court Justice Dowling, Chairman, after the Right Rev. Joseph F. Mooney, Vicar General of the Roman Catholic Archdiocese of New York, representing Cardinal Farley, had spoken.

ROBBED POOR BOXES; KEPT CAREFUL RECORD

A memorandum book noting thefts from church poor boxes and the articles purchased with the proceeds of these robberies were found upon Charles Carpenter, a homeless man from Buffalo, who was arrested early to-day in the Church of St. Jean de Baptiste, at Seventy-sixth Street and Lexington Avenue. He admitted taking \$3 from the poor box of this church.

The memoranda concerning the other robberies were thus set down: Oct. 7, 1915, Church of the Holy Rosary, \$240; Oct. 8, Church of the Holy Rosary, \$248; Oct. 10, St. Veronica's Church, 64c."

The arrest was brought about by the fact that policemen and detectives were placed on duty, especially all day, to guard the church last night, as to-day is the anniversary of the birth of Francisco Ferrer, the socialist, whose memory was celebrated last year by attempts to blow up St. Patrick's Cathedral and the Church of St. Alphonsus.

ARRESTED AFTER A YEAR.

"The Umbrella Kid" and an Alleged Swindler From California Taken.

Harry Wade, known to the police as "The Umbrella Kid," as they say his pocket-picking is performed under cover of an umbrella, and John J. Gardner, alias Edwards and Harris, were arraigned in Yorkville Court to-day. The police had been searching for Wade ever since Meyer Lippman of No. 753 Beck Street, the Bronx, was robbed of \$1,000 in an elevator at No. 25 East Twenty-sixth Street a year ago.

The two were arrested yesterday afternoon in Grand Street, near Forsyth Street, by Detectives Muggie and Cassassa. Gardner said he was a farmer from California, but the police got the finger prints and identified him as having just done five years in California for a confidence swindle.

ONE EVERY 96 MINUTES

(From The Evening World)

THE New Haven Railroad has just issued a bulletin entitled "A Deadly Peril." It deserves wide reading.

Posted in and about stations and trainyards, this bulletin calls attention to the fact that last year in the United States 3,471 persons were killed while walking on railroad tracks. This was at the rate of fifteen a day, or one every ninety-six minutes.

Here is a peril for which the only remedy is prevention in the form of individual caution and common-sense. No one can save a man from the danger of walking on a railroad track so effectively as the man himself. If he neglects prevention, nobody else can supply a cure.

Loss of life from this cause—last year's total is greater than the population of many a town—is mainly due to willingness to "take a chance." The temptation to get to the shop in quicker time in the morning, to gain a minute or two at the noon hour, or to save a walk of half a block by a short cut over the tracks is too strong for thousands every day.

If people can ever be made to see the disproportion between what they gain and what they risk in walking on railroad tracks, casualty lists for this class of accident will be among the shortest.

Don't Suffer Longer
